Negotiations are in progress between the State Department and the Russlan government as represented, respectively, by Special Plenipotentiary Kasson and Ambassader Cassini, looking to the making of a reciprocity treaty under the terms of the Dingley tariff act. As both countries are large producers of raw material and as Russia is making enormous strides in the Special to the Indianapolis Journal. development of manufactures of metals and textiles it is with great difficulty that the plenipotentiaries can find articles to portation this sugar receives substantial aid from either the local or general Rusliable to a discriminatory duty. But the representations of the Russian governent, has indefinitely suspended the exaction of such duties. For its part the Russian government has refrained from imposing maximum (and in many cases proitory) duties on United States exports to Russia. Now it is intimated that the situation is rather precarious; that there is danger at any moment of a judicial decision or some executive action on one side or the other that may destroy the amicable understanding. This appears from the news received on the Pacific coast that Russia is contemplating an 80 per cent. increase of the duties on American flour, while the sugar arrangement is by no means permanent.

The Navy Department has received a report from Commander B. F. Tilley, the commandant of the naval station at Pago-Pago, on the Island of Tutila, Samoa. Peace and quietness, says Commander Tilley, prevail everywhere among the natives, and they are obedient, tractable and industrious. Attention is being given to the cultivation of cocoanuts and bananas, and a marked increase in the exportation of copra is noted. A number of roads and harbor entrances are said to be suffering for want of improvements, and Commander Tilley says the natives would be much encouraged by the expenditure of a few thousand dollars by the government for this purpose.

Wabash River Pilots Take Action Against the Big Four.

Special to the Indianapolis Journal. TERRE HAUTE, Ind., Nov. 21 .- The licensed pilots and masters of steamboats for the upper Wabash river have taken action against the Big Four Railroad Company, which is putting a span in its bridge over the Wabash at this point that will do away with the draw and, therefore, be in violation of the federal statute. The law provides that no bridge may be built over a navigable river, except on condition that it is high enough to permit of free navigation or has a draw. The bridge did have a draw, but it was in one of the spans that went down in the wreck last February. The company's engineer decided that the pier on which one end of the draw rested was not safe, for the reason that the current was continually undermining it and. therefore, it was decided to throw one span of 224 feet over two of the old spans. This work is now being done. The steamboatmen went before United States Commissioner Higgins to-day to file

There is a story of a man who was so busy looking at the stars that, as he walked, he stumbled into a well. That's the story of a typical man, too busy

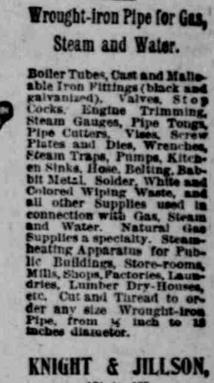

looking at things away off, to notice more important things near by. One-sixth of all deaths are from consumption. But the man goes along with his eyes bulging to watch cholera and yellow fever. He disdains to cure the cold or check the little cough, and consumption trips him up.

Don't neglect little ailments. Keep the system up to the point of effectual resistance against disease. This is best done by the use of Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, increases the action of the blood-making glands, cures all disorders of the organs of digestion and nutrition, except cancer of the stomach, purifies the blood, increases the vital energy and so enables the body to resist and throw off disease. Even when there is emaciation, weakness, hectic, cough, bleeding at the lungs and other alarming symptoms, "Golden Medical Discovery" can be counted on to help every time and to heal 98 times out of every hundred.

Sick people can consult Dr. R. V. Pierce, Buffalo, N. Y., by letter, without fee or charge. Every letter is read in private, and treated as a sacred confidence. All replies are sent in plain envelopes.

"Last spring I was taken with severe pains in my chest, and was so weak I could hardly walk about the house," says Mrs. G. E. Kerr, of Fort Dodge, Webster Co., Iowa. "I tried several physicians and they told me I had consumption, I heard of Dr. Pierce's Golden Medical Discovery and I thought I would try some of it. Before I had taken the first bottle I was very much better; I took five bottles of it and have not yet had any return of the trouble." Headache is cured by using Dr.
